

## ASCENSION ISLAND GOVERNMENT

# One Year Internships Conservation and Fisheries Directorate

***Would you like the opportunity to join the Ascension Island Conservation and Fisheries Directorate on a full-time basis as an intern from November 2024 to October 2025?***

Ascension Island hosts a unique assemblage of animals and plants in a dramatic volcanic landscape. It is home to one of the world's largest nesting populations of green turtles, over a million seabirds, plant species found nowhere else on earth and a marine environment that abounds with fish.

Protecting, monitoring and managing this amazing biodiversity is a great challenge and we are looking for hard-working, enthusiastic people to assist us. You will work across all aspects of the department and take part in a range of tasks on the island including monitoring turtle, land crab and seabird populations, non-native species removal, maintaining the National Park and Marine Protected Area, endemic plant restoration, fisheries monitoring and education and outreach programmes.

We'd like to hear from anyone interested in being involved in our conservation work who has preferably lived and worked in small isolated communities before and is willing to work hard as part of a small team. We are offering 3 twelve-month positions from beginning of November 2024 to end of October 2025.

For the successful candidates we will provide:

- One return flight between the UK or St Helena and Ascension and reasonable travel expenses within the UK to Brize Norton if required.
